In controlled studies non specialised treatment that did not address dissociative self states did not substantially improve DID symptoms though there may be improvement in patients with other conditions. Dissociative identity disorder (DID) is a mental health condition where you have two or more separate personalities that control your behavior at different times. Aug 11 2025 When you have DID you have two or more separate identities called alters.

They control your behavior at various times. Each alter has its own personal history, traits, likes and dislikes. Oct 4 2025 Severe and repetitive childhood trauma often causes dissociative identity disorder (DID).

You can have multiple identities that function independently if you have DID. DID often co-occurs with other emotional conditions including posttraumatic stress disorder (PTSD), borderline personality disorder (BPD), and a number of other personality disorders as well as conversion disorder. Dec 20 2025 Having a split personality or multiple personalities means you have more than one distinct identity.
