Oct 8 2019 I wanted to post this review since there isn't much information out there on Ironman stuff. I bought the foam cell pro model on sale for \$1200 and the Jun 15 2023 Get adaptive armor when playing f3 and try to get as much cata xp as possible

Since you are ironman you will be a lot squishier since you can't buy gear from ah. Once you reach f4 you have to make your first big choice. You either go mage or bers

If you go mage grind spirit wings until spirit sceptre or if you want to go bers you have two IM AZ 2023 was my first full distance IM. My thoughts Swim water felt great and wasn't dirty contrary to all the reviews I read beforehand. Sighting was difficult due to the sunrise

Bike roads were bumpy until I hit the Beeline. Headwinds were pretty rough by lap 3. The turnaround point had great energy and gave me a newfound wind for each lap. Aid stations were fantastic

Run I loved May 2 2023 This is great for the hyper efficient but for the most part I think if the average ironman camped this progression tree they'd quit by mid game Jul 14 2022 But as an ironman gp isn't that important

If you want to be positive on money flow and do giants foundry the best combo you can do is a mithril alloy. 14 mithril 14 steel or anything lower than mithril will yield a profit but the xp will be much slower. If you use addy or rune you will be spending more than your making

Reply reply More replies May 3 2017 Hi guys 2018 LC200 I'm planning to do a 2 inch lift to have better look stance and the ability to put bigger wheels

Choosing between 2 brands which is better? IRONMAN 4x4 FOAMCELL PRO TOUGH DOG 40mm Bore 9 way Adjustable Dampening Shock *Tough Dog is 9 way adjustable dampening Ironman Jan 14 2020 Obviously I'm also cross shopping the comparable Ironman Nitro Gas OME 2702 w 2721 setups

For me longevity and reliability are key. I won't be asking too terribly much out of the suspension performance wise. I'm really trying to stiffen up my stock ride while adding a little ground clearance Aug 27 2021 These Ironman trailing arms had new bushings looked beefy and are adjustable

They are so beefy that you really don't have to worry if you hit one on a rock man these things are heavy

I don't think they are really necessary for mild lifts but the adjustment is there to get the wheelbase pinion angle back to stock or wherever you want them Sep 10 2021 Welcome to the r IronScapeIronmantips tricks megathread! What tips
