Oct 3 2023 IsXVideosafeto use or not? You know how itis you re browsing the web and you stumble upon this site and you re not quite sure if it s legit or not. I mean it s not like I m looking for trouble or anything but I value my online privacy and security 23 votes 40 comments

Hello I think theXvideosapp might have trojans in it

I noticed that the Avira antivirus on my phone flagged the app as May 3 2022 r techsupport Current searchiswithin r techsupport Remove r techsupport filter and expand search to all of Reddit Xvideosred credit card declinedlsthis a scam? So I went onxvideosand I tried to subscribe to premium using two different debit cards and it says the payments were declined for both

Does this seem fishy? My cards are showing active but I havent seen any fradulent charges on my bank account for a few hours Jun 21 2021 As long as you stay on the website and the websiteisa operated my a large well known company organization then yes you aresafe

when you click onto ads you are brought to other websites which can be unsafe Dec 25 2023 I m not sure where you re getting this info about it taking usernames and passwords unless you found a way to download an open source extension in the sketchiest way possible I can t imagine it having any negative impact

Check reply below though due to mozilla reviewing the code itisstillsafe I ve been reading some claims about PornHub being riddled with malware. I tried to scan the site with VirusTotal and it comes completely clean

Can somebody tell what danger this site represents?IsPornHub really dangerous? Jan 30 2021 I m planning on killing myself for clicking the Teen tag onxvideos

I was watching normal adult porn onxvideoswith Riley Reid beforehand and so many videos of her are titled teen as well as countless others in general all over pornsites. It s not an illegal tag or anything but I ve still never looked at it before Dec 4 2021 Xvideos isjust fine andsafeto visit

However if you get taken away to an ad page by accidentally clicking an ad could be a worry Nov 18 2021 11 votes 13 comments. trueStreamingisdownloading and yes you can get malware. It doesn t have to be in the video it can be hidden in the web page

As a basic rule of thumb if the websiteisallowing you to watch videos for free that you would otherwise have to pay for you increase the risk of being hit by malware.
