Feb 27 2024 Finally taking the plunge and changing from SkyHD to Sky Q resisted it for many years as the HD is reliable lots on Ebay and I'm used to it

It's a 2TB UHD HDR box coming with 1 x mini box for the bedroom but there's a 4K UHD HDR telly in there as well so will we ever get a UHD mini box??? Jan 1 2025 Been reading on the RXTV website that HD channels could be removed as the BBC is still to renew the licence for the Freeview HD mux Jan 2 2025 The idea is after 2016 streaming will be the home of HD and UHD so viewing on terrestrial Freeview will decline

If enough object possible the idea may be dropped and the HD mux licence renewed

But ultimately will be a commercial decision by BBC ITV Ch4 Ch5 Paramount DCMS and Ofcom Mar 12 2024 What order should Freeview channels be in? On my TV I have the following 1 BBC one HD 2 BBC two HD 3 ITV 1 4 CH4 5 CH5 Aug 27 2012 I'm afraid initially TCM HD and TCM 2 will just be available to Sky customers but we hope that Virgin Media customers will also have the channel in the near future Nov 8 2024 Sky Sports Box Office TNT Sports Box Office both Subscription Adult channels All Channel 4 channels are Subscription only not FTV on the ROI EPG

With the exception of E4 Extra and Film 4 +1 which are both FTA Also to note that Sky HD boxes don't receive Channel 5 HD unless a viewing card is inserted. Channel 5 SD is on 105 and 805 isn't on Jul 20 2025 I have a problem that started a few days ago

Experience so far is it occurs after 10pm on Freeview channels 103 and 104 ITV 1 HD and Channel 4 HD

Screen goes black with message in white letters To view this service please connect your device to the internet Opening the on screen program guide brings the picture back Jan 6 2025 Freely users report good results

I'm forced to watch most live channels at approx 1Mbps and even the HD channels are pretty low bandwidth esp on DTT

Yet I have a 1Gb fibre with tons of free bandwidth on it that I can't use to make this look better without paying Sky Virgin or buying a new Freely TV Sep 2 2021 I think all this talk about my broadband is a red herring

If I stream iPlayer Now TV Amazon Prime or any of the regular streaming services through their apps on my smart tv I can watch them right away in real time apparently in HD quality without interruption and through the same broadband and Wi-Fi Apr 18 2025 Sorry to ask but I just wondered if the only way to watch TNT Sports on my Sky Q box via the channel numbers not via an app is to subscribe direct with Sky at 31 month?
