Johnson Johnson J J is an American multinational pharmaceutical biotechnology and medical technologies corporation headquartered in New Brunswick New Jersey and publicly traded on the New York Stock Exchange

Its common stock is a component of the Dow Jones Industrial Average and the company is ranked No. 42 on the 2024 Fortune 500 list of the largest United States corporations. [2] In 2024 the company was ranked 45th in the Forbes Global 2000

[3] Johnson Johnson has a global May 15 2024 Johnson Johnson helped make sterile surgery a reality

Since its founding in 1886 the company had by the 1890s revolutionized the field of medicine manufacturing the world's first mass-produced antiseptic medical supplies. Johnson Johnson operates in highly competitive healthcare markets across its pharmaceutical and medical device segments.

In pharmaceuticals the company competes with major players including Pfizer PFE, Roche Novartis and Merck MRK.

The company's immunology franchise led by Stelara competes directly with AbbVie's ABBV Humira and Johnson Johnson is the world's second largest drug and biotechnology company by market capitalization behind Eli Lilly LLY but ahead of other big pharma competitors such as AbbVie ABBV Novartis NVS and Merck MRK.

Once known for household products like Band Aid and Tylenol, its consumer brands were split off into a separate company Kenvue KVUE in 2023 so Johnson Johnson could focus on the prescription medication and biotech market.

Business model Johnson Johnson J J is one of the largest healthcare firms in the world and one of the most diversified.

Its operations are organized into three business segments: pharmaceutical which generates 47 percent of revenues and 58 percent of operating profits; medical devices and diagnostics which accounts for 36 percent of revenues and 31 percent of operating profits; and consumer which contributes 17 percent of revenues and 11 percent of operating profits.

J J's pharmaceutical Johnson Johnson J J is a healthcare company engaged in the research, development, manufacture, and sale of innovative medicines and medical technologies. The company conducts business through its operating companies.

It provides pharmaceutical products for therapy areas related to immune disorders, cancer, neurological disorders, infectious, cardiovascular and metabolic diseases, and medical devices for use in cardiovascular, orthopedic, neurovascular care, general surgery, and vision. 4 days ago These two acquisitions enabled
