Bananas baked potatoes baked sweet potatoes milk and lentils are all good sources. Notice how much potassium you're getting. You can figure out how much potassium is in packaged foods by looking at the percent daily value section on the Nutrition Facts label

The food label assumes the daily value of potassium is 3,400 mg. Why does potassium need to be restricted? High potassium in the blood can cause irregular heartbeats resulting in a heart attack. As your kidney function worsens you will need to limit high potassium foods

Your doctor will check your potassium levels regularly and decide when it is necessary for you to limit potassium in your diet. DSpace World Health Organization DSpace The typical daily Western diet contains approximately 70 to 150 mmol potassium

The gastrointestinal tract efficiently absorbs potassium and dietary potassium intake varies greatly with the composition of the diet

Figure 9.1 summarizes the potassium content of several foods high in potassium content. Oct 31 2025 Wondering what mg of potassium should I take daily? Learn the recommended intake, discover the best food sources and understand the role of this vital mineral in a healthy nutrition diet. However, the sodium and potassium intake story is more dynamic in the public health setting.

Evidence suggests that sodium and potassium intakes influence current and longer term population health in children and adults mostly through complex and not fully understood mechanisms between dietary intake and blood pressure and cardiovascular health. Potassium is essential for our body's function.

Dietitian Musfirah Albakri from SingHealth Community Hospitals SCH explains in this first of a six part series on nutrition for healthy ageing.
