Nov 22 2009 This will show you how to change your desktop background to either a wallpaper picture image solid color or slideshow of you choice in Windows 7 For free desktop background wallpapers from Microsoft see Desktop backgrounds wallpaper Microsoft Windows By default the Windows 7 Home Basic edition will only allow you to change the desktop background by right clicking on a image and clicking on Set as desktop background This tutorial will show you how to allow or prevent all or specific users to be able to add configure or change desktop background wallpaper through Personalization in Vista Windows 7 and Windows 8  
Sep 14 2009 Black Desktop Background Hi all Few days ago my desktop background became black and since then i wasn t able to see any wallpaper on my desktop even the built in ones

I ve already tried Re installing the graphic driver Installing an older version of the driver Re starting logging off sleep hibernate switch user etc Changing theme Jan 23 2011 This tutorial will show you how to specify a BMP or JPG image of your choice as the default desktop background wallpaper for all or specific users in Vista Windows 7 and Windows 8

You will also be able to specify that the wallpaper image position to have the center fill fit tile or stretch style on the desktop

The options to change the desktop background in personalization will not be This will show you how to create or download a change Desktop Background shortcut to change your desktop background to either a wallpaper picture image solid color or slideshow Windows 7 only of you choice in Vista and Windows 7

The Windows 7 Starter and Home Basic editions do not have this feature included in them Feb 27 2010 Background locked to solid color Hi everyone I was messing around with my background one day trying to find some pictures for my slideshow

I don t remember exactly what happened but now I m stuck on the solid color background

I can choose what color it s set as but that s all Oct 30 2009 Where does Windows 7 store desktop images? I am aware of C \Windows\Web\Wallpaper however when I right click an image or photo to preview in Windows Photo Viewer then right click the photo one option is to Set as desktop background or I right click a photo image file in a folder same option Set as desktop background and or Preview Apr 28 2012 The folder at C

\Users\Admin\AppData\Local\Microsoft\Windows\Themes contains your saved themes when you select the Personalization panel then change the Desktop background Window color Sounds etc and save the theme under My themes Jan 2 2013 How to put image on desktop Not a background image How can I put an image on my desktop background? I don t want it to be the whole background just a 400 pixel image on
