Apr 7 2020 Katsuni really liked her. In fact her PC was so bad and old that in reality it was always Katsuni streaming for her and she would just control everything with TeamViewer. I remember she averaging like 100 viewers which at the time was massive lol okay never heard of her

she disappeared with him? Mar 26 2012 katsunihi needed some help with getting aoc.exe if u can pm me the link would be highly appreciated ty Feb 24 2020 I would add Helen nonsensical next to Memb if that was an option miss the days of him her katsuni and taff casting together

having ra feage as co casting was also very refreshing to hear NC sure brings back memories back even as a spectator only sorry for the double post Jul 22 2011 I m long time RTS fan played almost every game out there only AoE2 and SC2 competitively tho

I started following tournaments through recorded games back in the day katsuni and since the rise of twitchtv watched as much as competitive players POVs and castings as I could Nov 7 2013 FXd3P3W7Msk Happy 50th birthday Katsuni and thank you for all your work for the AoC community throughout all these years! Hope you and everyone else will enjoy this little compilation of video messages from all over the world! the Voobly Staff Team Apr 7 2020 Katsuni was slow composed enjoying himself streaming and Memb was the emotional explosive colour caster

It worked so well with these contrasting personalities great times when it was more about fun and pure joy than competition and perfectionism Jun 10 2012 Apart from streaming. That's where Memb and Katsuni would come in

I'm very happy those days are gone and the tournament organization scene is now in a much much better spot thanks to the expertise of folks like Chrazinni Robo and you who have set new standards for what a professional AoE tournament should look like Jul 4 2011 I finished the final version of my taunts mod

There are now 84 taunts with Katsuni's voice + 3 standard ones. Installation Guide
Go to game folder Taunt and delete or make backup copy all of files. Download mod and unpack all files to GameFolder Taunt
