Apr 6 2020 A strategic step wise approach will be essential when lifting lockdowns safely according to the WHO Mar 21 2020 The UK US EU and many other countries are currently in some degree of lockdown with restaurants and bars shops schools and gyms closed and citizens required or at least strongly encouraged to stay home to avoid catching or spreading COVID 19 the respiratory illness caused by the novel coronavirus May 14 2020 Lockdowns are not one size fits all nor a comprehensive solution for fighting coronavirus the WHO cautioned Apr 9 2020 People in quarantine are likely to develop symptoms of psychological stress and disorder and the scale of the current COVID 19 lockdown is unprecedented Dec 8 2021 Two years after the first case of COVID 19 was reported these are some of the key milestones in the global spread of and response to the coronavirus pandemic Jan 27 2021 Surveys show some people are reporting positive changes in lockdown with 83% having more time to do enjoyable things and 65% spending more time in outdoors Apr 7 2020 Nearly 3 billion people worldwide are under some form of COVID 19 lockdown and it has transformed the way the world's landscapes look Jul 10 2023 The world needs to be better prepared to tackle a future pandemic Kate Kelland of the Coalition for Epidemic Preparedness Innovations tells Radio Davos

By mapping viruses with the potential to become the next pandemic the global health community and governments can be more responsive the next time

Global collaboration and adequate funding are needed to improve pandemic preparedness and Oct 26 2020 In these moments of lockdown and isolation staying connected to friends and family can be challenging

However maintaining these relationships virtually is vital for our wellbeing as virtual interactions can stimulate similar responses to real world interactions Apr 22 2020 Key moments include the identification of the disease and its classification by the World Health Organization as a pandemic

Amid the suffering and population lockdowns there have also been significant milestones in global cooperation.
