Loveluck of the draw works great for auto weapons not so great on semi single. I used to runthearmor one as well but now I just use my million repair kits for armor Aug 25 2023 I put in like 80 fates total into genshin limited banners not a single 5\* and lost every single 4\* coin flip

I hope my lackof luckin genshin doesn t carry over forthedan heng banner cause I \*\*really\*\* want my dragon boyfriend Dec 1 2021 Luck of drawhas to activate for it to work and personally I dont use it. But when it works youll notice immediately

However theres another way to make your bar decrease slower over repairing. Pick up weapon artisan rank 3 and use that when repairing your guns

Theyll last a lot longer Ive flown in a couple times inthepast yearl have no idea about any luckydrawthing Jan 19 2019 [W]hat happens ifLuck of the Drawactivates at say 196%? It is my suspicion that it actually setsthegun back to 100%. No it doesn t

I can t tell much improvement intheweapon condition even when it s already below 100% whentheperk procs so I presume without having made any attempt at empirical quantification that it s not very much at least at level 1

However I can i loveluck of the draw its very weapon dependant on how efficient it is though. for example unless its patched a semi auto weapon will get more procs than an auto since at last check it procs based off per trigger pull insteadofper shot

so tapfire weapons = more procs Jun 10 2023 In Euro it is 150 needed in gems. Lastdrawwas 6500 if I remember correctly Apr 3 2020 Ive hadluck of the draw chance to repair on enemy hit maxed since i first startedthegame. I picked it up because i was sickofmy weapons breaking in 5 magazines

Now that im up near 100 is it still worth it to use when i rarely actually repair my weapons anymore? Nov 28 2021 Luckisthedifference between a life where you can impact your own future and a life where your future is unchangeable and usually miserable regardlessofwhat you try to change it

I never likedthemiss 100% one Apr 3 2018 Can make twins. Sounds hella fun Bandwagon luck charisma and plot armor when it comes to convincing others to explore new worlds Miscellaneous Power sing anddrawpeople closer in a daze One Percent magic and raw talent for using it. Matchtheworld I won.
