Dec 13 2013 For example if the website is stationed in Russia and they show content considered ok for them but illegal to the US would the US laws apply to me while going to said website? A lot of sites like these don't even show up in searches you can only access them with direct URL which makes me think search engines block them Jun 2 2014 Would I get in trouble with the law if I viewed zoophilia pornography? Would I be tracked down and get a fine jail time? But if they belong to a bigger server they will just reappear the second they were taken down because most of these sites work with bots

It is nearly impossible to hunt down the producers because they hide their tracks by using several servers all around the world Reply reply RedCoat006 they used to post under touch of luxure then they broke up dude now posts as god of luxure on orange and black website Reply reply More replies [deleted] u downloadmp4 Reply reply [deleted] Jun 24 2024 102 subscribers in the luxure community. I have not seen a prosecution in the US for merely viewing bestiality pornography which is certainly different than downloading it. I also agree with the other response that it is highly illegal to engage in the act itself. It is also unlikely that the police would happen.
