Davis. On the magnitude of temperature decrease in the equatorial regions during theLastGlacialMaximum The Academy of Natural Sciences of Philadelphia America s first natural history museum There are natural history museums in all 50 of the United States and the District of Columbia

The oldest such museum the Academy of Natural Sciences in Philadelphia Pennsylvania was founded in 1812. [1] Measuring crevasse snow thickness Franz JosefGlacier. Our aim is to understand the role ofglaciersand ice sheets in the Earth System

In particular we investigate the interactions between ice and the climate system both for projecting future changes and for reconstructing past climates Feb 18 2021 Image by Climate based on data from theUniversityof Zurich Applied Sciences provided by Science on a Sphere

The latestice age peaked about 20 000 years ago when global temperatures were likely about 10F 5C colder than today

At the Pleistocene Ice Ages peak massive ice sheets stretched over North America and Eurasia Sep 24 2025 Vegetation history and climate changes in Africa north and south of the Equator 10 S to 10N during theLastGlacialMaximum. In P. Smolka W. Volkheimer Eds

Southern hemisphere paleo and neoclimates Key sites methods data and models pp. 225248 New Mexico Geology NMG publishes peer reviewed geoscience papers focusing on New Mexico and the surrounding region

We aslo welcome submissions to theGalleryof Geology which presents images of
