The 12 standardmeridians also called PrincipalMeridians are divided into Yin and Yang groups. The Yinmeridiansof the arm are the Lung Heart and Pericardium In traditional Chinese medicine energy is believed to flow through specific pathways of the body known asmeridians

This article explains the 12 majormeridiansand their corresponding roles in your health Meridiansare not anatomical structures like nerves or blood vessels recognized by Western science

Instead they are channels that facilitate the circulation of the bodys essential life force providing a map for practitioners to diagnose and address health imbalances Sep 6 2023 Meridians or Jing Mai defines a vessel system described in the Nei Jing the oldest Chinese medicine book

So the word Meridians refers to the major longitudinal blood vessels on the body 3 on each arm and leg so we have a total of 12 called principalmeridians Apr 9 2024 What are meridians? Meridians areenergetic pathways that run through the body as vascular nerve bundlesand are embedded in the extracellular matrix the bodys living connective tissue Feb 18 2024 Meridiansare channels that direct the flow of energy through specific pathways of the body

Think of it like a superhighway the energy in your body uses to move about your organ systems Lines of longitude also called meridians run between the geographic North Pole and the geographic South Pole and are used to measure distances from the prime meridian Meridiansare also known as acupuncture meridians and energy vessels

The meridiansfunction as a network much like a highway system that can be mapped out throughout the entire body Sep 30 2024 What Are Meridians? Meridians act asinvisble pathways that spread vital energy or Qi throughout the human body

Each meridian links to a specific organ and has its own set of acupuncture points

These paths help keep the balance between the bodys physical emotional and spiritual conditions Feb 2 2024 The 12 principalmeridiansin acupuncture are divided into yin yang groups further categorized intomeridiansassociated with the arms and legs

Thesemeridiansplay a fundamental role in acupuncture and the broader framework of TCM.
