truel am in search of a Draw or Excalidraw that I can self host. I tried WBO it s fine but looks more like drawn in Paint. Are there close alternatives? P.S. Diagram is possible to self host but my server is too weak to handle it

P.S Solution was to use nextcloud apps that has both excalidraw and draw integration

Wondering if its possible to self host it on Proxmox as a VM CT? Not looking to have external access to it just on my LAN. It looks like NextCloud may have an addon extension to add draw to it but is there a more direct way to self host it? Not finding much on self hosting it directly. Thanks.
