May 27 2013 It seems odd that Tesla decided to heavily discount existing 2025ModelY inventory at greatly reduced prices yet only offers the 2026ModelY fully loaded at \$60k. If the new car is the only version offered it seems as if clearing out 2025 models was overly aggressive

Somehow the RWD cars are so well balanced between rear regeneration and front turning scrub that I just stopped rotating tires on the RWD M3s. They wear supernaturally perfectly.
