Share sensitive information securely with self destructing links. Paste yoursecret generate a link and share it. Once viewed it s gone forever Share asecretlink that is available only one time Our service is designed specifically for text based secrets to ensure maximum security and simplicity

Files especially images can contain metadata that might unintentionally reveal information about the sender or recipient

By focusing on text we can guarantee that no additional data is transmitted beyond what you explicitly type One TimeSecretis a secure solution for sharing confidential data such as passwords PINs or secret messages on a one time basis

The encrypted links expire after being accessed preventing unauthorized access I m Delano and I builtOne TimeSecretas a way to share sensitive information that s both simple and secure

Originally the idea was to share passwords but since launching the service in 2012 we ve heard from people all over the world who use it in ways we never imagined

We help people share over 50 000 secrets a month OneTimeSecretis created to reduce the amount of clear text passwords stored in email and chat conversations by encrypting and generating a short lived link which can only be viewed once Share sensitive information securely with self destructing links that are only viewable once.OnetimeSecretprovides a simple secure way to share sensitive information

Our service ensures your data remains private and ephemeral in an increasingly permanent digital world Hi I m Delano the creator ofOnetimeSecret. What began in 2012 as a straightforward secure way to share sensitive information has evolved far beyond the initial vision

More than a decade later we re fully in the secrets service business serving use cases I never imagined Keep sensitive information out of your chat logs and email. Share a secret link that is available only one time Access theOnetimeSecretAPI for encrypted self destructing secret sharing

Integrate secure credential sharing with TTL settings custom domains and multiple authentication options.
