Mar 22 2025 Tendinopathy is a term for any condition that affects a tendon. Tendons are cords that attach muscle to bone. Tendinopathy which can cause pain and tenderness is common

It is often caused by overuse or repeated movement and tends to affect certain tendons in the arm or leg Nov 18 2023 Isometric exercises are tightening contractions of a specific muscle or group of muscles. During isometric exercises the muscle doesn't noticeably change length

The affected joint also doesn't move. Isometric exercises help maintain strength. They can also build strength but not effectively. And they can be performed anywhere

Examples include a leg lift or plank Mar 7 2023 Overview A muscle cramp is a sudden unexpected tightening of one or more muscles. Sometimes called a charley horse a muscle cramp can be very painful. Exercising or working hard especially in heat can lead to muscle cramps

Some medicines and illnesses also might cause muscle cramps Apr 27 2023 The most common causes of muscle pain are tension stress overuse and minor injuries

This type of pain is usually limited to just a few muscles or a small part of your body. Muscle pain that is felt throughout your whole body is most often caused by an infection such as the flu

Other causes include more serious conditions such as some diseases or health conditions that affect the muscles Jan 25 2025 The muscle spasms can range from mild to more serious. They may be painful and they can affect the person's ability to complete daily tasks

There's no cure for dystonia but medicines and therapy can improve symptoms. Surgery is sometimes used to disable or regulate nerves or certain brain regions in people with serious dystonia Jan 5 2024 Overview Myofascial pain syndrome is a long term pain condition

It involves some muscles and the thin cover of tissue that holds muscles in place called fascia. Pressure on these areas called trigger points causes pain. Sometimes the pain is felt in other parts of the body. This is called referred pain

The pain often is felt as shoulder pain back pain tension headaches and face pain Nov 8 2025 Neuromuscular Disease Overview Neuromuscular diseases affect the function of muscles due to problems with the nerves and muscles in your body. The most common sign of these diseases is muscle weakness

Mayo Clinic neurologists provide comprehensive evaluation of these diseases
