Feb 27 2023 Aside from themystiqueof the pre 64 model 70 these new ones are every bit the equal of them and also new and not 50 plus years old Aug 20 2004 The TRWmystiqueis further strengthened by the growing pains suffered by Winchester and Harrington Richardson in 1960 and 1961

Overall it is fair to say that TRW had the most trouble free production record of the four manufacturers

Sometimes it pays to be last but it always pays to plan well Mar 14 2006 But themystiqueof having your rifle as close as you can get to the original M14 GI parts and a forged receiver without the big cost of a NFA one

Of course there is the premium cost for that Nov 7 2006 The Norinco steel core was declared AP by BATFE. It has amystiquedue to that. I think that I have a case of it in the ammo bunker

What I did find that was accurate and able to penetrate quite well was a couple cases of 1100 rounds on strippers of Chinese Military Surplus from the 1980s. Still have a case and a half of that as well

The Yugo brass case 7.62x39 was also rated highly as Aug 28 2012 The TRWmystiqueis further strengthened by the growing pains suffered by Winchester and Harrington Richardson in 1960 and 1961

Overall it is fair to say that TRW had the most trouble free production record of the four manufacturers Jul 6 2005 I don t know what data was entered or where it came from or what was changed when Smith Ent. fired up the CNC but we know where LRB got theirs

The whole Smith mystique was born of the fact that raises the old forged vs. cast argument. Smith never forged a receiver

They machined some from bar stock calling them forged and cast many more Feb 21 2011 Just saying they are not my cup of tea they seem to have amystiqueabout them similar to trw parts

I did read up on the cryo treatment it does change the properties of the steel but can you really see the difference at the range? I would like to see someone do a side by side test with an obermeyer or Krieger barrel

I m not sold Aug 27 2014 The first 14 barrel will be from fully contoured and threaded barrel with no gas port so I can find out for myself about themystiquebehind the GP in the groove chambered with my own reamer Dec 8 2014 M1 Sniper has a new in wrap OM N trigger housing for sale over on Gunbroker

The wrapper is dated 1966 so after Winchester had stopped M14 rifle production
