Nordic delivers world class hardware embedded software development tools power management world class support and cloud lifecycle services all simplifying development for developers to build reliable scalable and future proof connected products faster Cellular IoT Wi Fi Bluetooth Low Energy Nordic Product Guide Click to download PDF Dec 11 2025 Nordic Semiconductor a global leader in low power wireless connectivity solutions today announces the launch of the nRF9151 SMA Development Kit DK a specialized DK for RF engineers developing cellular IoT DECT NR+ and Non Terrestrial Network NTN applications Nordic Semiconductor a global leader in low power wireless connectivity solutions today announces the acquisition of its long term partner Memfault Inc

the market leading cloud platform provider for large scale deployments of connected products Nordic Semiconductor is a leading provider of low power wireless communication solutions utilizing decades of ultra low power wireless expertise to maximize Wi Fis low power potential in various applications including home automation smart lighting and other IoT devices An integrated RISC V coprocessor can run software defined peripherals and handle time critical tasks

With innovative technologies emerging like Channel Sounding in Bluetooth 6.0 partnering with Nordic an established leader in the field becomes a clear and practical choice Dec 2 2025 Nordic Semiconductor a global leader in low power wireless connectivity solutions today launches the nRF54LV10A SoC setting a new benchmark for integration performance and battery life in the smallest medical devices Global IoT wireless connectivity module supplier Minew Semi has announced a new Bluetooth LE module based on Nordic Semiconductors new next generation of wireless SoCs the nRF54L Series We selected the Nordic nRF5340 for our LEO L50 outdoor asset management device due to the SoCs powerful computing and low power consumption capabilities as well as its support for the Zephyr RTOS which provides greater flexibility during development says Tsai Nordic Semiconductor a global leader in low power wireless connectivity solutions today launches its latest IoT prototyping platform the Nordic Thingy 91 X for LTE M NB IoT Wi Fi SSID locationing DECT NR+ and GNSS applications.
