Learn how to make your account more secure Apr 17 2021 Open Settings in Windows 10 How to Open Settings in Windows 10 Published by Shawn Brink Category General Tips 17 Apr 2021 How to Open Settings in Windows 10 Most of the settings you ll want to change in Windows 10 are in Settings Settings you can change The settings you can choose depend on whether you re on a computer tablet or phone

SafeSearch filters Search with autocomplete Spoken answers Where results open Even if you select Open each selected result in a new browser window Google Image search results always open in a new tab

Past searches Language Location Change settings quickly on your Android phone You can find and change your settings from any screen on your phone with Quick Settings. To get to the settings you change often you can add or move them to Quick Settings On your computer open Chrome

At the top right select More Settings. Select Reset settings Restore settings to their original defaults Reset settings You can change your settings for the Google app including settings for voice search past searches SafeSearch and notifications

Some Google app settings are based on your device settings like dark theme Sep 27 2025 27 Sep 2025 How to Turn On or Off Sync Your Settings in Windows 10 When Sync settings is turned on Windows syncs the settings you choose across all your Windows 10 devices that you ve signed in to with your Microsoft account

Sync Your Settings has been replaced by Remember my apps and Remember my preferences with the Windows Backup app Find settings make changes On your computer go to Gmail. In the top right click Settings See all settings. At the top choose a settings page such as General Labels or Inbox

Make your changes. After you re done with each page click Save Changes at the bottom To help protect your account Gmail automatically identifies suspicious emails

To reinforcethisbuilt in protection you can also identify suspicious emails and settings yourself Make sure the email address and the sender s name match

If you get a suspicious email in Gmail report it as spam or phishing.Thishelps Google stop future scammers Change settings for a specific site You can allow or block permissions for a specific site. The site will use its settings instead of
