DuckDuckGo search is one better thantheother? I read an articleontechcrunch link below that says soon to be launched Brave search istheonly real privacy focused search engine built from ground up

I use duckduckgo as my primary search option and was fairly confident abouttheprivacy DuckDuckGo is a private alternative to Google search as well as free browsers for mobile desktop devices

Unlike Chrome DuckDuckGo browsers have privacy built in with best in class tracker blocking that stop cookies creepy ads that follow you around more I m using Brave but once I missed a letter and write I instead of k i automatically redirected to a virussite and it started to dowloadthevirus without my permission so my trust dropped a lot

I m thinking of changing and I ve seen a lot of good comment of Duckduckgo s browser. Anyone using it or what do you think about it? I ve been using duckduckgo lite as a primary search engineonmy main profile.Onother profiles I ve mostly been using searXNG

Problem is searXNG isn t good for sophisticated results. Most search engines I ve used yield wildly different results. I was fine with using duckduckgo lite as from what I ve gathered is stillthesecound best search engine after brave search
