Explore the world through the eyes of somebody else. The meaning of PERISCOPE is a tubular optical instrument containing lenses and mirrors by which an observer obtains an otherwise obstructed field of view. Periscope is an optical instrument used in land and sea warfare, submarine navigation and elsewhere to enable an observer to see his surroundings while remaining under cover behind armour or submerged. A periscope is a simple optical tool that lets you see over walls or around corners.

It uses two mirrors or prisms placed at an angle to reflect light from the object to your eyes. Periscope is a social network that allows users to broadcast and consume live streamed video content.

On March 31st 2021 Periscope was shut down because the cost of maintaining and expanding the platform was outweighing the revenue that it was generating. You can watch Periscope broadcasts on Periscope and X on iOS, Android and web.

On Periscope, the Watch Tab is where you go to watch live broadcasts and replays from people you follow, curated broadcasts in channels and broadcasts shared with you. Apr 5 2021 Periscope, a service that played a major role in catapulting mobile live streaming to the forefront, is shutting down for good.

In December 2020 Twitter announced its decision to close Periscope by March 2021. Periscope was a mobile app launched in 2014 that allowed users to broadcast live video to a global audience.

Acquired by Twitter in 2015, it quickly gained popularity but faced declining usage and rising costs, leading to its shutdown in March 2021. A periscope is a vertical tube which people inside submarines can look through to see above the surface of the water.

The submarine was at a shallow enough level to have its periscope above water. Collins COBUILD Advanced Learners Dictionary. Copyright HarperCollins Publishers.
