Use ofALKTKIs is effective fortreatmentof patients with ALK+NSCLCand CNS involvement and evidence supports alectinib brigatinib or ceritinib in this setting as first line therapy Apr 10 2024 Platinum based chemotherapy is the recommended adjuvanttreatmentfor patients with resectable ALK positivenonsmall cell lung cancer NSCLC

Data on the efficacy and safety of adjuvant May 8 2024 Alectinib targets cancer cells that have specific changes called rearrangements in theALKgene

The drug has been shown to increase how long people withALK positive metastaticNSCLC live and has become a mainstay fortreatmentof people with this form of lung cancer On April 18 2024 the Food and Drug Administration approved alectinib Alecensa Genentech Inc

for adjuvanttreatmentfollowing tumor resection in patients with anaplastic lymphoma kinase ALK May 9 2025 Introduction Anaplastic lymphoma kinase ALK inhibitors ALKi are the standardtreatmentfor metastatic ALK positivenon small cell lung cancer NSCLC

Second and third generation ALKi including alectinib brigatinib ensartinib envonalkib and lorlatinib have shown better efficacy than crizotinib Mar 1 2025 There are currently sixALKinhibitors available for the first linetreatmentof patients diagnosed withALK positive advancednon small cell lung cancer NSCLC

However clinicians face challenges in selecting the most appropriate drug fortreatment

We have collated pertinent evaluative evidence and undertaken a multifaceted assessment of the enrolled medications across five critical Aug 1 2025 The molecular pathogenesis clinical features andtreatmentofNSCLCassociated with theALKfusion oncogene are discussed here

An overview of thetreatmentof metastaticNSCLC ALK positive earlyNSCLC and the methods and indications for molecular testing are presented elsewhere The 2025 American Society of Clinical Oncology ASCO Annual Meeting featured multiple studies ontreatmentstrategies for patients with advanced anaplastic lymphoma kinase ALK positive non Jul 24 2025 Thetreatmentlandscape forALK positive advancedNSCLC has been revolutionized by the availability of highly effective second and third generationALKinhibitors each offering distinct efficacy and toxicity profiles that influencetreatmentselection Dec 2 2025 However all patients with advanced non squamousNSCLC should be tested forALKrearrangements

What are thetreatmentoptions for someone withALK positive cancer? Knowing if you haveALK positivelung cancerhas the mosttreatmentimplications for advanced
