Mar 30 2025 The document outlines the process of upgrading the ExpressRoute gateway to a zone redundant SKU and the public IP to a Standard SKU enhancing reliability performance and security

It highlights the importance of following ITSM guidelines including change management protocols planning it during a maintenance window and thorough testing Apr 13 2023 Azure Logic App is an integration service

It provides you the opportunity to create and run automated workflows that integrates with your application data services and systems etc. These workflows can be written with little to no code. While creating a logic apps when we come across the logic apps plan there are two choices

Standard Consumption based This is an attempt to help make a Jan 9 2025 Azure Files provisioned v2 is now generally available for HDD standard We are excited to announce the general availability of the Azure Files provisioned v2 billing model for the HDD standard media tier Oct 7 2024 Azure Kubernetes Service Standard has been the go to option for Azure based Kubernetes deployments offering extensive customization and flexibility

However with the introduction of AKS Automatic currently in preview Azure aims to streamline and automate many aspects of cluster management reducing operational overhead for faster growing Feb 12 2025 Azure Standard Load Balancer pricing is based on the number of load balancing rules as well as the volume of data processed

Doc 3.1. VM to ILB same VNet Data transfer within the same virtual network VNet is free

However the data processed by the ILB is charged based on its volume and on the number load balancing rules implemented Jun 23 2025 This guide provides instructions for creating a sample Standard logic app workflow locally using Visual Studio Code and the Azure Logic Apps Standard extension intended for use with single tenant Azure Logic Apps Jun 16 2025 Background The Basic SKU public IP addresses associated with Azure VPN Gateway are scheduled for retirement in September 2025

Consequently migration to Mar 6 2023 As part of our commitment to continuously delivering increased value for our Azure Disk Storage customers we are excited to introduce a cap on the number of billable Azure Standard SSD transactions

As a result we have made changes to the billable transaction costs per hour that can result in additional cost savings

The total cost of Azure Standard SSD Disk Storage depends on the size Jan 30
