The Gregorian calendar is a solar calendar based on a 365 day common year divided into 12 months of different lengths

Eleven months have either 30 or 31 days while the second month February has only 28 days during the common year Gregorian Calendar Reform Why Are Some Dates Missing? By Konstantin Bikos and Aparna Kher The Gregorian calendar the calendar system we use today was first introduced in 1582

To make up for the inaccuracies of its predecessor the Julian calendar a number of days had to be skipped Gregorian calendar 2026 Calendar. Yearly calendar showing months for the year 2026

Calendars online and print friendly for any year and month Calendars online and print friendly for any year and month and including public holidays and observances for countries worldwide Calendars online and print friendly for any year and month and including public holidays and observances for countries worldwide The Gregorian calendar addresses this by employing a slightly more complicated set of rules to determine which years are leap years s still not perfect but the resulting deviation is very small The Islamic calendar the Hebrew calendar and the Hindu calendar also use months to divide up the year

Although the Gregorian calendar is the most commonly used calendar today other calendars are still used in many parts of the world to calculate certain holidays and annual feasts

Old Names of Months Months in the ancient Roman calendar In the Gregorian calendar this corresponds to April 3 to May 10. In some years Orthodox Easter falls on the same day as western Easter

The next time this happens is in 2028 when both Gregorian Easter and Julian Orthodox Easter are celebrated on April 16

Read more about Orthodox holidays Proposed Easter Date Reforms The Islamic Calendar By Konstantin Bikos Muslims around the world use the Islamic calendar to determine the dates of religious events and observances.Itis also known as the Hijri calendar or the Muslim calendar The weeks of the year in a Gregorian calendar are numbered from week 1 to week 52 or 53 depending on several varying factors

Most years have 52 weeks but if the year starts on a Thursday or is a leap year that starts on a Wednesday that particular year will have 53 numbered weeks.
