The link you provide is for Power Automate so those functions won't work in the PADesktop. There is an action named Convert datetime to text in PAD you can specify the formats you would like there The action lets you pick from existing formats or you can specify one

copy this code to PAD to see a custom example Text Dec 12 2022 You can retrieve the contents of the CSV file using the Get file content action in Power Automate Microsoft Flow and then using the Parse CSV action to transform the file contents into a structured format that can be used in subsequent actions in your flow
