We saw a problem years ago that our stock AC compressors were too complicated and also outdated as well as the rebuilt ones kept failing. So with the assistance of MustardCat we came up with this

MustardCat designed a bracket for B Series H Series Oct 1 2014 This super easy brake upgrade requires no special tools and can be done with the most basic knowledge of car maintenance. Using all Honda parts you will go from 11.1 to 11.8 rotors and can still retain factory 16 wheels

Parts list 99 04 Acura RL front brake rotors 99 04 RL brake caliper.
