While Incognito can help keep your browsing private on your device it doesn't make you invisible

Websites you visit including Google sites and organizations that manage your network like your school employer or internet service provider may be able to observe your activity in Incognito To keep your sensitive apps away from prying eyes you can set up private space a separate space on your Android device to hide and organize apps

With private space you can Create a digital safe within your phone for the apps you don't want others to easily access or find

These apps can isolate their data from the rest of your phone Mar 20 2024
Description Marking a game as private hides your ownership in game status playtime and activity in that game. This allows you to make specific games private rather than your entire Library

So your friends can see and join the games you choose to share. What does Mark Private on a game do? Click the down arrows under Visibility and choose Public Private or Unlisted. Save. Note The default video privacy setting for creators aged 13-17 is private

If you're 18 or older your default video privacy setting is set to public.
Everyone can change this setting to make their video public private or unlisted
If you sign in temporarily on a computer phone or tablet that doesn't belong to you use a private browsing window
