Aug 4 2020 TriggerTech Diamond two stage 700 platform trigger features labeled on an open trigger Analysis of the Two StagesRelease Sequence TriggerTechsingle stage triggersrelease was already pretty complicated and the two stage is more complicated still Aug 8 2019 Les Jim Fischer BigJimFish Aug 8 2019 TriggerTech Diamond trigger in itsshiny package TriggerTech triggers were one of the many products that I encountered by way of the Mesa Precision Arms Crux rifle review

I vaguely recalled having met the TriggerTech guys a few years before that at SHOT show but the pull weights of the models they had at that time were a bit heavier than I used I Feb 2 2010 This triggertech diamond was intended for my badger m2013. No a remington 700

When installed it wouldn t catch the firing pin. So I pulled another rifle out and tried it in the 700. When I had issues in it as well I figured either I was doing something wrong or it was the trigger Jan 13 2012 Is the Diamond worth the extra money over the special

For science lets say both triggers are set at 1 lb. Are they the same at 1 lb obviously I know the Diamond goes down to 4 oz

What advantages other than reduced pull weight and a different trigger shoe does the Diamond have over the Special? Jan 13 2019 What will feel better to you personally depends on if you want a single stage or two stage trigger

Figure that out first then buy the Triggertech because they re coming out with a2stage soon and their triggers are head and shoulders above the Timney sin terms of feel having tried a single stage Calvin Elite next to a Diamond this was my observation Nov 27 2020 I would like to replace the x mark trigger on my Rem 700P with a Triggertech diamond2 stage

Sadly this trigger is only available for clone actions and not for factory Remington 700

Triggertech web site seems to imply that there is a difference between the bolt release on the factory May 14 2020 I immediately emailed TriggerTech and Ed over at TriggerTech immediately sent me a new Diamond with a hat too! Get the new trigger sent direct from TriggerTech installed and the same thing happened! Jul 25 2020 Switched to Triggertech Diamonds from Bix TacSport Pros

How do I Can I even adjust the sear height on a Diamond? I m super familiar with how to do it on my Bix but I can t for the life of me figure out what I m supposed to do on the Trigger Tech if at all

Please advise or does anyone know if this is a Triggertech warranty somethingorother? Dec 13 2018 The triggertech special will drop the firing pin
