Reel to grip methods You can see in the pic below I use rubber bands to hold the reel while taping. That rod has two rubber bands on it because I didn't know if I was gonna like that reel on that rod

However when mounting a reel with Tommy Tape I will rubber band the back of the reel and tape the front first. Then remove the rubber band and tape the back. Very simple process! I cut a piece Dec 22 2022. The reel is slightly on the smaller side and that is the reason for liking it

It has less weight and therefore I can detect a lighter bite. Obviously the reel doesn't have the line capacity but I'm not fishing for Northerns or Musky. Walleye don't tend to make long runs

And if I do hook a longer running fish I still have plenty of line to Rubber bands for ice reels? Re Rubber bands for ice reels? Reply 15 on Feb 06 2017 08:35 AM Keep in mind if you use heat shrink tubing you cannot do a reel replacement quickly on the ice as you can using the bands. Logged Now is the time for all good men and women to engage in the sport of ice fishing. Weed Ez or Reel Weeds?? I got the single reel weed for around my camera cord last year

Then I picked up a 4 pack of Weed EZ weeds yesterday. Really liked how compact and flat they store. The reel weed for my camera is a pain since it doesn't compact very well. Haven't really used them yet but for \$20 what the heck. I do have one question about the weed ez product

I see where a person would unfortunately they discontinued that combo but it's basically the same reel as the lower end 13 Fishing Free Fall reels still on the market

I love the trigger Winter Reel Services. Just wondering what people's experience with this is? They received my reel on 1/7 but I have not heard a word from them. When I first inquired they made it seem like turn around was much quicker than it looks like it actually will be

Not that I am in a rush but if I was could I depend on this service? 30-45 day turn around wouldn't work out too well in the middle of the winter. My non hook setting original foolers for dead sticking with a 500 series baitfeeder reel on a Jason Mitchell meat stick. They pack down wonderfully

I would highly recommend their hole covers as well. The only issue I have with them as with any tip up is that they are great for live bait presentations but not so much for anything else. The revolutionary Tight Line Pro will set a new standard for in line ice fishing reel performance

Now you can engage free spool and release free spool with one finger OR engage
