Reel to grip methods You can see in the pic below I use rubber bands to hold the reel while taping. That rod has two rubber bands on it because I didn't know if I was gonna like that reel on that rod

However when mounting a reel with Tommy Tape I will rubber band the back of the reel and tape the front first. Then remove the rubber band and tape the back. Very simple process! I cut a piece Dec 22 2022 There is slightly on the smaller side and that is the reason for liking it

It has less weight and therefore I can detect a lighter bite. Obviously the reel doesn't have the line capacity but I'm not fishing for Northerns or Musky. Walleye don't tend to make long runs

I love the trigger Winter Reel Services Just wondering what people's experience with this is? They received my reel on 1/7 but I have not heard a word from them. When I first inquired they made it seem like turn around was much quicker than it looks like it actually will be

Not that I am in a rush but if I was could I depend on this service? 30 45 day turn around wouldn't work out too well in the middle of the Love my non hook setting original foolers for dead sticking with a 500 series bait feeder reel on a Jason Mitchell meat stick. They pack down wonderfully

I would highly recommend their hole covers as well. The only issue I have with them as with any tip up is that they are great for live bait presentations but not so much for anything else The revolutionary Tight Line Pro will set a new standard for in line ice fishing reel performance

Now you can engage free spool and release free spool with one finger OR engage
