Depending on what side you are working on you are going to want to expose the access panel in the Jul 27 2015 I have searched the Renegade manual and while the manual says in the section about oil changes that there is info on resetting the oil change indicator light in the section about EVIC DID I could not find anything about it there.

However I hazard a guess that the EVIC DID will display a reminder message once an oil change is due May 7 2025. Greetings all. Firstly a big thanks to Oggy for posting the service manual for the 2014 2018 Renegade

It was a big help for this DIY and no doubt will come in handy for future fixes! I replaced my windshield washer fluid pump today as it had been leaking and in the spirit of giving back Jun 3 2020 I have a 2018 Renegade Sport Upland trim with 17 stock rims.

I am wanting to swap out the stock tires for all terrains but have no idea where to start. Does anyone know the max tire size I could go with without having to modify anything? Mar 4 2025. We all know how important good batteries are in the Renegade

Now has almost 160 000 miles on it and couldn't be happier with it! However a recent problem cropped up. The heater won't blow hot air like it used to. The fan motor blows and it will change zones floor defrost dash etc

but the air coming out just isn't hot Jun 26 2024. Had so many issues with my daughter's 2021 Renegade. Warning lights no power won't start its the key fob and told multiple times the battery is good with the report. This time all of the warning lights hard brake pedal and wouldn't let you start

Took the battery out and replaced it myself and it drives like a new car Dec 24
