Jan 3 2017 How do I go about either making or retrieving facebook short url s fb from a page profile event etc? I want to update my url shortener site but if the user links to a facebook page I want to just return a fb link instead

Does facebook make their short urls on the fly or does each page automatically already have one? Jan 6 2015 Finally fb admins or fb app_id A comma separated list of either the Facebook IDs of page administrators or a Facebook Platform application ID

At a minimum include only your own Facebook ID Jan 13 2012 5 If your question is whether you can use your FB Page ID as the fb app_id meta tag then no! Facebook s documentation is spare and contradictory on this Dec 22 2011 There s only thing that server has to do just check any access token s validity

Clients send to the server user id and access token obtained by FB.getLoginStatus

As I expected there would be a Jul 19 2016 Zebra Programming Language ZPL II using ^FB or ^TB truncates text at specific lenghts Asked 12 years 4 months ago Modified 9 years 5 months ago Viewed 28k times Aug 24 2014 Given the recent encouragement by Facebook to migrate to a separate messenger app and as a followup to the {very informative!} answer to the question on URL URI schemes supported by the Facebook app I ve been wondering whether information regarding the Facebook messenger app custom protocol of fb messenger is available Jan 27 2011 For iPhone there exists the fb URL scheme but trying the same thing on my Android device throws an ActivityNotFoundException

Is there a chance to open a Facebook profile in the official Facebook app from code? Feb 13 2017 The fb app_id property should be explicitly provided Specify the app ID so that stories shared to Facebook will be properly attributed to the app

Alternatively app_id can be set in url when open the share dialog. But I have this meta tag with fb app_id property! What am I doing wrong? Cheers I m trying to add a hyperlink in fb messenger. Basically I m creating a chatbot that replies users questions

However when I want to link the user to a webpage the only way possible is if I type in It should be emphasized some users do NOT have a username set for their FB account

When this is the case and you are trying to implement this answer you will receive FB s default profile picture the question mark. To easily avoid this problem use the user s FB ID instead LaCasadelasFloreses una serie web de comedia dramtica mexicana creada por Manolo Caro para Netflix
