Git clone will clone remote branch into local

Is there any way to clone a specific branch by myself without switching branches on the remote repository? How can I download only a specific folder or directory from a remote Git repository hosted on GitHub? Say the example GitHub repository lives here [git github foobar Test.git](#) Its directory str Jan 5 2010 Don't forget to do a git fetch all prune on other machines after deleting the remote branch on the server

After deleting the local branch with git branch d and deleting the remote branch with git push origin delete other machines may still have obsolete tracking branches to see them do git branch a. To get rid of these do git fetch all prune Feb 25 2016 I need help on my Excel sheet

How can I declare the following IF condition properly? if $A1 = n$ a then $C1 = B1$ else if $A1 \neq n$ a or has value int then $C1 = A1 * B1$ I think you need to push a revert commit. So pull from github again including the commit you want to revert then use git revert and push the result

If you don't care about other people's clones of your github repository being broken you can also delete and recreate the master branch on github after your reset git push origin master PowerShell sGet ADGroupMember cmdlet returns members of a specific group

Is there a cmdlet or property to get all the groups that a particular user is a member of? I have the following commit history HEAD HEAD~ HEAD~2 HEAD~3 git commit amend modifies the current HEAD commit. But how do I modify HEAD~3? Nov 10 2009 Say that someone created a branch xyz

How do I pull the branch xyz from the remote server e.g. GitHub and merge it into an existing branch xyz in my local repo? The answer to Push branches to Git Aug 5 2022 I recognized the string aHR0cHM6 which is https base64 encoded

So I guessed that removing a1 could give a URL if I base64 decoded the rest of the string with == appended for base64 completeness. This is a comment to your follow up question Joey Baruch

It may not align properly due to the fact that I have no login The MSDN Technet URL now redirects to a page saying The Windows PowerShell 1.0 OwnersManual has been retired. For the most up to date Windows PowerShell content go to Using Windows PowerShell

I'll try to replace it with a valid URL if I have time this afternoon.
