Jul 8 2021 I had organized a recurring private meeting appointment teams online with several attendees

However I had cancelled the whole series private meeting appointment but it still appear open at all Jun 15 2023 Is this feature ever going to catch up to the 21st century? The domain part was great years ago

The logic to implement this should be pretty easy as I see tons of features I ll never use that may be more complicated. I prefer Outlook to Gmail but sooner or later Google will get smart to add it 1. Asking me to set a date range. This defeats the purpose of backing up ALL my Tasks 2

Telling me that the export doesn t support recurring Outlook appointments or tasks! WTH!?!?! If I have to restore this backup I will be left with individual tasks for every recurring one I have set up! Talk about a PITA! My boss is sharing her Outlook 2013 Inbox folder with me on an Exchange server running Windows 7

I am categorizing color coding e mail for her on my computer. But when she goes to her Inbox on her computer none of the categorization colors show up on the e mail

Is there any way to make this happen? Thank you for your help Hello recently my hotmail box is not allowing me to receive e transfer email

already try multiple times it is still not working I always use this email to receive e transfer for couple years Sep 18 2024 I reset my PIN while working in Office and at the next startup the Windows login says Something happened and your PIN is unavailable. Click to reset your PIN

When I click Reset your PIN nothing Jul 15 2021 How can I move the Tasks and Calendar folders from one account to another within Outlook? I have a personal account no exchange server Nov 12 2012 Setting up my GMail Account was easy but now I am stuck finding the All Mail folder

This IMAP folder contains all E Mails of an account. I can t find this even though I subscribed to this folder Thank you for posting in Microsoft Community

Regarding your suggestion I would suggest you purchase a new subscription and set up your own tenant and admin account and migrate everyone to your new tenant

Before switching from your IT service provider to your own tenant please make sure you back up your data and also back up your one drive files Apr 2 2013 This just started today. When I click on the hyperlink in my emails it now leads me to Bing research sidebar
