Jun 11 2005 A high white blood cell count usually means one of the following has increased the making of white blood cells An infection. Reaction to a medicine. A bone marrow disease An immune system issue. Sudden stress such as hard exercise

Smoking. Specific causes of a high white blood cell count include Jun 15 2005 White blood cells are made in bone marrow the spongy tissue inside some of the larger bones

Conditions that affect the bone marrow are the usual causes of low white blood cell count Jan 14 2023 A medical condition such as an autoimmune disorder that destroys white blood cells bone marrow problems or cancer might be the cause

Certain medicines also can cause a drop in white blood cell counts Jun 11 2005 White blood cell count WBC blood test. Testing. <https://www.testing.com/tests/white-blood-cell-count-wbc/>. Accessed Nov

23 2022. McPherson RA et al. Leukocytic disorders. In Henry's Clinical Diagnosis and Management by Laboratory Methods

24th ed. Elsevier 2022. [www.clinicalkey.com](https://www.clinicalkey.com). Accessed Nov

23 2022 Aug 17 2025 One nurse said You must have a significant infection which is pushing your WBC count up rapidly

We won't see Rachel's hematologist until she is discharged from Rehab Feb 9 2024 I've heard about the fact that some people have naturally lower levels of WBC that don't signal any health issue

The thing that worries me is that my counts keep getting lower and lower over time May 1 2025 Many factors can cause too few or too many white blood cells

Find out more about these conditions in children Overview Children with pediatric white blood cell disorders have too few or too many white blood cells. White blood cells called leukocytes are part of the immune system. They come from bone marrow and help fight infections

Several conditions can cause having too few or too many white blood cells Dec 14 2025 My RBC Hemoglobin and hemocrit have all been low since I took Zytiga. My WBC has stayed normal. My oncologist feels that the numbers aren't really an issue since they aren't that low

If they got much lower I would feel anemia but I have no fatigue problems at all. They can give you blood plasma transfusions to try to increase those counts Apr 11 2025 I immediately hit the proverbial books and found studies from the NIH regarding prostate radiation
