In August 2023 there were rumors floating around that Selenawas coming out with new music and later that month she released her single Single Soon. But it was confirmed that wasnt the lead single to her next album Feb 22 2023 Selena Gomezhas rubbed me the wrong way since Jelena

Shes tried so hard to curate her good girl image that its always come off as disingenuous and fake Feb 13 2024 Selena Gomez s singing ability is on par with an average skilled high school choir student. That said she does know how to use her range appropriately so her music is good

But without already being an actor she d never have become a music artist even at the working indie level Jul 7 2023 720 votes 13 comments. 15K subscribers in the SelenaGomezAss community
