Semen also known as seminal fluid is a bodily fluid that contains spermatozoa from the male gonads of animals. In humans and placental mammals seminal fluid is ejaculated through the penis via the urethra Oct 11 2025 Semen is a fluid that includes sperm or male reproductive cells

It transports the sperm to meet an egg for fertilization which may lead to pregnancy Nov 26 2025 Healthy semen looks off white or slightly yellow with a consistency similar to raw egg whites and a slight scent of ammonia or bleach

Occasionally it may contain jelly like clumps which is perfectly normal especially if you haven't ejaculated in a while Dec 6 2025 Semen fluid that is emitted from the male reproductive tract and that contains sperm cells which are capable of fertilizing the female's eggs

Semen also contains liquids that combine to form seminal plasma which helps keep the sperm viable Aug 31 2020 Semen is a fluid that contains sperm and fluids from the prostate seminal vesicles and bulbourethral glands

It helps sperm travel to an egg for fertilization Jul 21 2025 Semen is the mix of sperm and seminal fluid together. It is Latin for seed from serere to sow. Semen only exists outside the body because sperm and seminal fluid only combine at the point of ejaculation

Seminal fluid is made in the sex glands Oct 19 2025 On average with each ejaculation nearly 200 to 300 million sperm are released

To meet the egg semen must travel from the vagina to the fallopian tubes a tough journey that few sperm survive Semen is an organic fluid also known as seminal fluid that may contain spermatozoa

It is secreted by the gonads sexual glands and can fertilize female ova Semen also known as seminal fluid is a bodily fluid that contains spermatozoa from the male gonads of animals

In humans and placental mammals seminal fluid is ejaculated through the penis via the urethra Dec 2 2024 Semen is a viscous whitish fluid that carries sperm cells reproductive cells and is released during ejaculation typically at the peak of sexual pleasure

It is produced by organs in the male reproductive system such as the prostate seminal vesicles and bulbourethral gland.
