TabletopSimulatorwas released in 2015 and served as both a tool for game makers and for people who wanted to play copies of board games online

The game was immensely popular after the pandemic Jan 12 2022 TabletopSimulatorhas found itself at the center of dueling review bomb campaigns on Steam following complaints from a user who was kicked and temporarily banned from the game s global chat The chat logs cited in that doc include numerous instances of temporary bans issued right after Xoe discussed her personal sexual or gender identity in the chat those cases moderators cited posted rules that there is an expectation that discussion will be family friendly and centered aroundTabletopSimulator tabletopgames and chatting Jan 13 2022 Negative TabletopSimulator reviews accuse the game of being transphobic while positive reviews are filled with transphobic and homophobic remarks Jan 17 2022 The recentcontroversybegan when a player going by the handle Xoe posted an extensive Google Doc documenting what she called the suppression of gay trans identities inTabletopSimulator Jan 10 2022 TabletopSimulatorremoves global chat amid allegations of transphobic homophobic moderation One user alleges she was banned multiple times for simply mentioning her gender and sexual identity Jan 14 2022 We apologize for hurting theTabletopSimulatorcommunity especially those from the LGBTQ+ community

With global chat we only ever intended to create an open platform to discuss the hobby we all love however we have obviously fallen short of that standard and so we have decided to officially take global chat down for good
