Dec 5 2003 Hi Jeff I have a Bosch saw that came with no laser or light. I added an aftermarket laser because it didn't require any modifications. I used it initially but have since pretty much stopped after the battery died

I considered adding a shadowline light but haven't figured out any kind of mounting system yet. Although I haven't used one yet I think the shadowline would be my preference Dec 8 2005 I finished this shadowbox for a friend of mine that's retiring in a week or so

I delivered it this morning he's very happy with it! I also made him a pen from Honduran Mahogany and had it engraved by Mike and Jen. He at first said he couldn't accept it until I said he didn't have a Feb 15 2018 TShadow makes one and so does Benson Pace

I need it to be accurate enough to make multiple passes if I need more depth. Does anybody have any experience with either of these

I know that Nancy who is a member here is the rep for Pace and am awaiting a PM from her Mar 17 2004 Here is a brief tutorial for adding a drop shadow using Jasc Paint Shop Pro version 8. It turned out to be a 12 step program for some reason

Step 1 Photograph your pen using a high contrast solid background. A sheet of white paper works well for many pens. Download image to your computer and open with PSP 8

Step 2 Adjust photo brightness as Apr 30 2008 A neat trick is to mount the piece in question between centers and spin it at med speed and look down at it you will be able to see a shadow of the solid parts as it spins the narrowest part of that shadow is the maximum size cylinder you can turn from that piece USING THOSE CENTERS

Move the centers around to maximize the size of the shadow Dec 4 2006 Trying here as well I got a Neje Master 3500 gifted to me with a Rotary Jig made by T.Shadow and Co based on the original Mike Shortness design according to the labels on the boxes

Some parts missing especially the bearing holders for the roller and some lifts. I have a 3D printer and Jul 2 2009 Another rotary jig is sold by Bob Marquis Magic Bob here on IAP t shadow. www.tshadow.com. Right now the TShadowjig doesn't do closed end items

I PM'd MagicBob several days ago and he said they're working on developing one. As far as photos for the Bob Benson Pace jig he's requested that nobody post photos or videos of his v2.0 style jig Aug 11 2016 I saw an ad for a Magical Skew made by T.Shadow CO DELUXE MAGICAL SKEW T.Shadow Co. LLC
