Restore backup files from my cd s I did an HP system restore OS to OEM condition. Prior to that I did a Backup and restore to 12 DVD+R s. Now I want to restore the files and the Hard Disk does not have the Restore information

It is all on the Disks there is a cat folder mediaid.bin and an autorun setup info file Aug 21 2014 I used the Backup and Recovery tool in Windows 7 and put the backup on a thumb drive before getting my new laptop which is running Windows 8.1

When I plug in the drive I have a folder called called Backup files with the date. Inside the folder I have a zillion files called backup files 1 backup files2 etc. which are all zip files Aug 12 2013 My Windows 7 PC died

I faithfully had backed up my files onto a Fantom external hard drive but without using Easy Transfer never having heard of it nor having planned to buy a new PC Oct 15 2024 But i did go to their support page and tried to fix there aswell
