Nov 8 2019 The difference is that she s and similar shortened forms are used in colloquial speech but not in certain cases

In your example she is being emphasised I saw this from globalnews Molly Johnson on the album shes always wanted to make When referring to google ngram I get 3 possible combinations of she s She s She s She hasSomy questio Possibly the difference is cadence

When words are emphasized the emphasis is some difference in any or all of volume pitch duration and shape. Sowhen she s is unemphasized there is asmalldifference in the sound of it

If we tend to emphasize she has more than we emphasize she is then that might be reflected in the pronunciation of the contraction Sep 12 2020 Where is she? is standard English and where is she at? is a US local dialect mainly Southern No there is not. Or no there s not
