Apr 2 2011 People finding this question might be interested in How do I connect to this localhost from another computer on the same network? Feb 14 2023 0 I have to implement notifications functionality in CarPlay by using siriKit. I able to show the notifications in carplay

when I click on the notification sirireading it by default. my problem is that I want to show thesiriUI as below whilesirireading the notifications

but I am unable to implement it Mar 11 2022 Connecting to back end server my hostname xxx 9010 failed error connection refused When performing a list servers query it seems that the servers are not able to find each other Aug 5 2022 I recognized the string aHR0cHM6 which is https base64 encoded

So I guessed that removing a1 could give a URL if I base64 decoded the rest of the string with == appended for base64 completeness. This is a comment to your follw up question Joey Baruch

It may not align properly due to the fact that I have no login Sep 29 2018 InvalidSiriSupport Localized description for custom intent xxxxxx not found for locale zh_CN InvalidSiriSupport Localized title for custom intent xxxxxx not found for locale zh_CN I have added localized title and description in Intents.strings for the zh_CN language but nothing worked

image Could someone tell me how to solve it? Mar 11 2019 So while editing my search engines on Chrome I accidentally deleted Bing and now i want to make it my default browser

i have tried to use the Make bing your homepage application by microsoft Aug 18 2009 The void operator evaluates the given expression and then returns undefined. The void operator is often used merely to obtain the undefined primitive value usually using void 0 which is equivalent to void 0

In these cases the global variable undefined can be used instead assuming it has not been assigned to a non default value

An explanation is provided here void Sep 23 2012 I read numerous press releases claiming that Apple would makeSiri s API available in iOS but now thatSirihas been released I cannot find any documentation for the said API on developer.apple I ve never addedSirisupport to an iOS app but it seems parameters have gotten a lot more powerful in iOS 13

This answer suggests something similar wasn t possible in iOS 12 but I think it s also doing something somewhat different I want to launch the app they want to create an object presumably just using Intent UI Jun 7 2018 Can Siri shortcuts be used in any type of app? Because of SiriKit only working in tourism chatting
