Jun 26 2018 Have Same Problem by FTP connect But it works by https files.000webhost logging in How can I do with FTP Connect if I prefer this method for big upload? Oct 1 2018 I assume Google use various servers just like 000webhost does which is why pinging it will probably produce different IP address at different locations and different times Can you photo your hardware setup screen? Jul 20 2017 El dominio es propio y lo tena vinculado mediante la opcin Name Server desde domain donde se administra mi dominio all encontr tambien la opcin Subdomain Pointing Manager que aunque parece ser lo que necesito y solamente pide el nombre del subdominio y la carpeta del dominio a la cual apuntar tal como en el anterior cPanel de vuestro hosting tampoco parece Feb 4 2013 Hola resulta que registre un dominio el cual por motivos de disponibilidad lo tube que registrar de la siguiente manera

mi dominio para registrarlo con el guion no tube problema el tema es que al querer abrir una cuenta en 000webhost me dice que el guion no es aceptado

que hago? como pongo el nombre de dominio? Oct 6 2012 I got a domain through Yahoo signed up for this web host tried to to a change in name server but it requires 2 addresses and disconnects me if i try to set the one to 000webhost and the other to yahoo Jan 29 2017 Community support freakcity January 29 2017 4 52pm 1 hi i read the tutorial about connecting to filezilla

i think i got my user and pw right but i cant connect

what can i do?' thx Max akhilkumar332 January 29 2017 5 05pm 2 Login to your 000webhost accountGo to Settings General You wil find your FTP details Aug 3 2010 Holas! soy nuevo! Tengo un problema! Tengo mi dominio.ar apuntado a 000webhost me anda perfecto ahora como puedo hacer para crear un correo midominio.ar ?? desde ya muchas gracias!!! Jul 18 2022 First thing to do would be to login to the 000webhost panel and hit Tools then Database Manager see your active WordPress database then Manage and phpMyAdmin Apr 5 2012 Community support linegreen04 April 5 2012 8 05am 1 Sir Im Fresher in this feild i have created a page on my site named result www.piyush.host56 and i have also created data base in my sql option on 000webhost with two tabels and some feild

on my wesite result page i have created 3 text box name ROLL SESSION and Stream Aug 6 2019 Buen da he estado teniendo problemas para acceder al administrador de archivos desde 000webhost y FTP FileZilla

En 000webhost tarda en cargar la sesin me dice que los datos de acceso son incorrectos y no me deja entrar ni editar los archivos que tengo almacenados.
