Apr 25 2021 How to Automatically Lock Computer when Idle for Specified Time in Windows 10 When you lock a computer it protects it from unauthorized use when you need to step away from the PC and don't want to sign out or shut down

The Interactive logon Machine inactivity limit security policy setting allows you to specify an amount in seconds of inactivity to wait before Windows 10 will automatically Oct 15 2016 Is there a way to adjust brightness via keyboard shortcut

My notebook seems to completely blank the screen at ZERO brightness and you can't see anything Nov 23 2020 F If the Snip Sketch app icon is on the taskbar right click or press and hold on Snip Sketch and click tap on Take a new snip New snip in 3 seconds or New snip in 10 seconds for what you want

This option is only available starting with Windows 10 build 18219

The New snip in xxx seconds option is a good option to use when you need to take a screenshot of a drop menu or anything else Oct 17 2018 New Laptop Windows 10 Home Missing directory Fingerslip on mouse. Hi I Clicked on a subdirectory located on an external 1Tb HDD formatted NTFS called Old cellphone photos my finger like pulsed on the mouse not sure what happened resulting in the directory went missing. I looked on ext HDD main drive C recycle bin used search on each Apr 8 2018 How to Change System Unattended Sleep Timeout in Windows 10 The System unattended sleep timeout power setting is the idle timeout before the system returns to a low power sleep state after waking unattended

Adjusting the system unattended sleep timeout period can be handy if you had created a task in Task Scheduler to wake up the PC to run something

You could set this timeout to be long Jun 14 2020 How to Change Computer Sleep After Time in Windows 10 The Sleep after setting in Power Options allows users to specify how long in minutes the computer is inactive idle before automatically going to sleep

Sleep uses very little power your PC starts up Dec 23 2024 USB 3.0 devices where develop to be used with Win 10 and 11 As Win 7 was very popular at that time USB 3.0 Drivers for Win 7 were also develop There are no USB 3.0 Drivers for Win XP

If you have a modern computer with USB 3.0 devices I suggest you install Win XP on a virtual machine Jan 18 2023 Slip the card into the reader Press the Windows key +X and choose Disk Management. In the lower Pane is your card reader showing there? Does it say media is present? Does it say the file system is Unallocated Space? Or on the Disk on the left panel does it say it is Not Initialized

If the drive shows up but the files do not then you will need to use Data
