Manage new passwords Automatically save or preview a new password If you enter a new password on a site Chrome will ask to save it. To accept select Save How Google Password Manager handles your data Google Password Manager collects certain information to perform services on your device

Some of this functionality uses Google Play services

For example the Google Password Manager collects this information for analytics and troubleshooting purposes Page views and taps in the app Crash logs

Diagnostics Your saved data is always protected by Use passwords passkeys across your devices When you sign in to an Android device or Chrome Browser you can save passwords and passkeys for your Google Account with Google Password Manager

You can use them to sign in to apps and sites on all your devices where you're signed in with the same account Export passwords from Google Password Manager On your computer open Chrome. At the top right select More Passwords and autofill.

Select Google Password Manager Settings

Scroll to Export passwords. Select Download file. Check for unsafe passwords

After you import your passwords you can check whether they're exposed in a data breach or potentially weak and easy to guess

Learn more Manage new passwords If you enter a new password on a site Chrome will ask to save it. To accept tap Save Mit dem Google Passwortmanager können Sie ganz einfach starke und einzigartige Passwörter oder Passkeys für alle Ihre Onlinekonten erstellen und verwenden

Sie können Passwörter und Passkeys auch in Ihrem Google Konto oder auf Ihrem Gerät speichern, verwalten und schützen. Download Google Password Manager app On your Android device open the Google Play Store app. Or open Google Play Store. In the search bar enter Google Password Manager. Tap Install
