A friendly place to discuss programming withSnap! Feb 28 2025 Weve just released SnapCloud v10.5 featuring sound recording capabilities on iOS devices and a new block for getting tilt sensor data from your phone or tablet Jan 18 2025 Hello everybody! Immediately felt in love withSnap! once I got to know it and wanted to thank you devs and forum users for all of your work and participation

It inspires! I have a question regarding objects attributes. Maybe it s quite obvious as it is and or well explained in a certain Reference chapter I skipped but there s the one thing I wanted to implement in my tiny deckbuilding Jan 27 2025 I need help with a solution for aSNAPtask for my son

He is at his wits end trying to figure it out but his teacher does not help him. I have no clue what I am doing and tried using AI but that didn t help. The task is Create a script that allows a user to input a series of names and store them in a variable list L

The list should allow the user to continue entering names until they Feb 9 2025 Function to Image [Snap! project] A new project I made where you can generate images from 3 functions based on the X and Y axis which are the 1st and 2nd inputs

The 1st function is the red channel while the 2nd and 3rd functions are the green and blue channels. Each function s output value is modulo 256 so that a function has no maximum value even when a value is above 255

Essentially Mar 24 2025 In this week s module we will begin exploring how to create games inSnap!. Since games tend to be more complex this module will extend across multiple weeks as we develop concepts create first drafts and then refine mechanics and features

As a jumping off point please review the documents on the course page for the module on Designing Mar 29 2025 Library Snap! Build Your Own Blocks Demo Snap! Build Your Own Blocks This library works by modifying the movement blocks to paste a line from the start position to the new position onto the sprites

I also made it use a local variable to store all the sprites that the pen is down on so that every sprite can have a different list Nov 19 2025 Scratchers coming toSnap! generally dont like the old style Scratch 1.4 look ofSnap! as they are used to Scratch 3 appearance

If the visual block changes could be incorporated intoSnap! as an optional skin then it would be a big win for block programming progression Thanks for the very kind words Feb 9 2025 Description copied from StephanShi s website Bytebeat Bytebeat music or one liner music was invented in September 2011
