Asplitor partial screened window stays in the background when you open or select other windows or apps

To display 2 windows next to one another select Splitor Partial windows for both windows In split screen mode you can adjust the size and position of the apps or drag text or images between compatible apps to multitask

You can also save an app pair for quick access to your favorite apps to use in split screen mode Use 2 apps at a time with split screen Important If you have a Pixel 2 or Pixel 2016 turn on Swipe up on Home button

You can find it in your Settings app under System Gestures Swipe up on Home button Use split screen switch between apps on your Pixel Fold You can use 2 apps at a time on your Pixel Fold. You can also quickly switch between apps when you tap an icon in the taskbar

Learn how to use split screen on your Pixel Fold with our step by step tutorial Turn on picture in picture or split screen Picture in picture PiP allows you to continue watching YouTube TV while using other apps on your mobile device

Picture in picture shrinks the video into a small player that you can move around your homescreen and position over other apps Jul 2 2023 The OP asked about SPLIT SCREEN and blocking of CHANGING TABS

Those features are NOT a part of Locked mode and so your suggestion does not answer the question In gmail on Samsung tablet my emails are shown on left side of screen. The chosen email is shown in split screen mode on the right side of the screen. This is something new and a feature i do not want

I just need the chosen email to be shown in fullscreen mode You can resize the split screen divider by dragging the line in the middle of the screen up or down. To switch between the two split screen apps simply tap on the app you want to focus on

To exit split screen mode drag the divider all the way to the top or bottom of the screen depending on which app you want to close You can watch up to four live streams simultaneously on one screen with multiview. Explore the benefits of multiview on YouTube Tap the Cardboard icon

The screen split will split into two smaller screens. Insert your phone into Cardboard. Look around to view the video in VR180 or 360 degrees. Learn more about watching 360 degree 180 degree content

Cardboard is not supported for iPhone and iPad. Note VR180 and 360 degree video playback is not supported on mobile.
