Choose from sports games or jumping and then enjoy your no hassle day. View our party options Wichita Sports Forum houses Aviate Extreme Air Sports Trampoline Park and 148 000 sq ft of multi sport convention and event space

Learn about our features Feb 6 2011 with u32 match ipsport80 in Linux tc I can match port 80 but how can I match a port range 10000 20000 ? Jan 11 2023 At first glance you re only allowing DNS responses to be received and don t create any DNS related rules in the OUTPUT chain to actually allow sending DNS queries out

You current rules DNS resolution input and output iptables A INPUT p udp dport 53 d 8.8.8.8 8.8.4.4 j ACCEPT ^^^^ iptables A INPUT p udp sport53 s 8.8.8.8 8.8.4.4 j ACCEPT ^^^^ Additionally DNS can also use TCP iptables t nat A POSTROUTING p udp sport123 j SNAT to source 10.21.3.169 However the second prerouting and second filter commands seem like overkill to me as as I understand it they forward all UDP packets from port 123 on the NTP server.
