Aug 11 2025 Until recently researchers and laypeople alike have used the terms female ejaculation and squirting interchangeably to describe an involuntary emission of fluid from the vulva

Recent studies have now clarified that these two phenomena are not the same thing Apr 2 2025 One of the most mysterious and debated phenomena is a release of fluid during sex that is often referred to as squirting

Whats actually happening and why does it stir so much speculation? Sep 23 2024 Squirting is when some women release a fluid during sexual activity usually through the urethra

This happens naturally and involuntarily before during or after orgasm What is squirting and does it really matter? The topic is surrounded by myth and misinformation often creating confusion and anxiety. In this video Andrology Specialist Dr

Iris Amelia Mar 19 2025 Discover the truth about female ejaculation and squirting and learn how they differ

Explore common myths their physiological processes and why understanding these phenomena can lead to greater confidence and pleasure in your sexual wellness Female ejaculation also known as gushing or squirting happens when a woman has an orgasm and clear fluid comes out of her vagina

Scientists are not sure how the fluid is produced but think it is produced by the Skene's glands also called the paraurethral glands or female prostate Coming and squirting are two terms often used in discussions about sexual pleasure and orgasm

Coming typically refers to the release of sexual tension and the experience of orgasm while squirting specifically refers to the expulsion of fluid from the Skene's glands during sexual arousal or orgasm Jun 28 2022 A primer on squirting also known as female ejaculation

It includes instruction from and discussion with sex educators as well as anecdotes from people who experience squirting Both squirting and female ejaculation refer to the expulsion of fluid from the urogenital tract of folks with vulvas and vaginas during sexual arousal or orgasm Introduction During sexual stimulation some women report the discharge of a noticeable amount of fluid from the urethra a phenomenon also called squirting

To date both the nature and the origin of squirting remain controversial.
